

ATTACHMENT TO THE BOARD HEADER FOR
SPECIAL MEETING OF THE BOARD OF
SIERRA SANDS UNIFIED SCHOOL DISTRICT
ATEN CONSTRUCTION
OPEN PURCHASE ORDER
5-9-17

1. The Board Header for ATen is to obtain an “open purchase order”
2. An “open purchase order” is for the purpose of immediately executing a critical construction activity that is not in the contract of an existing Prime Trade Contractor (PTC).
3. It is not unusual for one of the existing PTC’s on the Burroughs project to refuse to execute any work not already in their contract, i.e. a “change order” activity.
4. Colombo Construction Company, as Construction Manager on the project, cannot execute any trade work on the project, as that would be against statute.
5. The District can solicit work from a designated qualified contractor for an amount less than \$10k without Board approval.
6. The District can solicit and award work from a designated qualified contractor for a statutory maximum of \$45k without soliciting bids for the work.
7. ATen has executed immediately needed work for the project already, under a purchase order amounting to less than \$10k.
8. It has become evident that it will continue to be necessary to accommodate immediately needed work that the PTC’s refuse to execute.
9. Therefore, the Superintendent is requesting the remainder of the \$45k statutory maximum in the amount of \$45k; that is: \$45,000.00 less \$9,900.00, which amounts to \$35,100.00.
10. The immediate work order activity would have been an additional cost to any PTC, so this expense is not additional to any PTC, nor does it require a back-charge to any PTC.
11. The immediate work orders to ATen will allow the project to remain on schedule.
